

Reviews for PetZone Calm Bio App Patches for Pets

Angie Samson – November 12, 2015:

My vet wouldn't see my 7-year-old cat anymore because she would go absolutely crazy trying to get her out of her carrying bag every time we needed to see the vet. Once I had her out, she wouldn't hold still like a crazed maniac, and he refused to give her something to calm her down. She actually bit him once and that was the last straw. I just happened to catch your facebook advert on this Calm device, and knew in my heart this was exactly what Mimsy needed. Couldn't wait for it to arrive and put it on her. I could almost see an instant peaceful come about her, and begged my vet to please try one last visit to check on the skin rash Mimsy has been dealing with. He agreed and long story short, he accepted her as a regular patient again. Need I say more? Thank you so much for such a fantastic product.

Elly – May 10, 2014:

A friend had given me one of these to try on my wild and crazy shepherd, and it sure calmed her down to the point where I can walk her in the neighborhood without fear of my arm braking off. With 4th of July fireworks not too far in the distance (oh she shakes like crazy and hides for hours) and your current coupon (thank you for the email), I just placed my order for 2 packs. I want to give some to friends to try too, like pay it forward. Thanks again, great site you have!

Henry Messina – May 2, 2014:

I live in an apartment and even though small pets are allowed, my neighbors were complaining to the owner about my little Penny and her always crying and whimpering when I left my place to go out. My girlfriend had me check out your product that her coworker has been using for months for her dog who used to go through the same thing as Penny. As soon as these arrived I put one right on her collar. A few days later, one of my neighbors stopped me in the hallway and asked if Penny was ok cause she's been awfully quiet. I told her I found a majic bullet and that Penny was just fine! Boy that made my day. So thank you for giving my neighbors their peace back and for giving my sweet baby girl calmness when I'm not home with her. Highly recommend.

Laine – March 9, 2014:

I have adopted a year and a half old labradoodle and to my surprise she had a nervous streak that left me exhausted at the end of the day. She would get anxiety when I would leave for work and I couldn't keep her bowels normal. When I would travel with her she would not sit still, she would be pacing all the time. I've tried everything. I came across your product and I have been using it now for over a month. Wow! I cannot believe it. My Doodle is not the same and knowing this is safe makes me even happier. Thank you, thank you.

Sandy G. – February 10, 2014:

When I heard about your Calm from a customer of mine I wanted to try it on my dog. I was skeptical at first because she's very fidgety. I work in a beauty salon in Los Angeles and I take her to work with me every day, she is a four year old Shitzu. My customers love to hold her, but I started to see that she was getting scared of people as well as the noise. After using the calm patch, I started seeing a BIG difference in the way she connects with people again, and she seems not to be afraid of the noise in the salon. This is a great product for dogs!

Jessie M. – January 19, 2014:

Hi, my name is Jessie and I've been using your Calm product on my dog Rusty for two months now. He's a five year old Jack Russell. In the past when I left him home to go to work, Rusty would find things to rip apart, shoes, my P.J.'s my boots. He took his aggression out on my personal items; I had no idea what to do. Since I started using Calm, he's like a different dog. His behavior is toned down and does not have aggressive moods like in the past. I like it much better when I come home he greets me with excitement, and I find nothing ripped. Thanks for letting me know about your product. I will now try your Flea & Tick Protector.
