

FLEA FREE - Health Food Supplement for Total Flea Control  
Frequently Asked Questions

\*\*\*\*\*

Q. How does FLEA FREE work?

A. When FLEA FREE is added to pets drinking water, it goes to work internally, producing an enzyme that shields the protein the female needs in order to lay eggs. If she can't find what she needs, she jumps off, without biting, in search of another host to feed on. If she doesn't draw blood every 20 to 22 hours, she will die. This interrupts the female reproductive cycle. Males never bite.

\*\*\*\*\*

Q. How long does it take to start working?

A. Depending on your pet's weight, metabolism and infestation, along with the overall health of the animal, it has taken as little as 3 days and as long as three weeks. However, the average is six to ten days to realize the maximum results you'll get. If your pet is lacking in the nutrients that FLEA FREE provides, it may take a little longer. Sometimes white animals seem to take a little longer than dark ones.

\*\*\*\*\*

Q. Can you use FLEA FREE with other vitamins and supplements?

A. Absolutely, FLEA FREE can only enhance your pet's health and Well-being. FLEA FREE is safe and beneficial for all animals.

\*\*\*\*\*

Q. Is it safe?

A. FLEA FREE is all natural. It does not contain any poisons, chemicals, preservatives, artificial colorings or flavorings. It just simply contains: garlic, vinegar, beneficial herbs and citrus. All are beneficial for the health of your pets. FLEA FREE can also be used daily, as a human supplement! This is how natural the product is...it is made from only human-grade ingredients!

Q. Why garlic and vinegar?

A. FLEA FREE is a garlic & vinegar based formula, which helps provide a natural flea protection for pets with all the medical benefits of both garlic & vinegar. It also has a pleasant taste.

Garlic ("Nature's Antibiotic") contains over 200 vitamins, minerals, amino acids and enzymes. It is nutritious, repels fleas, most all ticks, mosquitos, lice, mites and biting flies. Garlic helps maintain a healthier heart, is good for the skin and coat. It also has cleansing qualities that work in the liver to break down toxins in the blood.

Vinegar is packed with over 90 nutrients such as essential amino acids, helpful vitamins, minerals and enzymes. It helps calm nausea, aids digestion, kills infections, helps relieve sore muscles, arthritis pain and improves overall health.

\*\*\*\*\*

Q. Can I add to Flea Free to my pet's food rather than the water?

A. Absolutely...in fact, this is the preferred way to use FLEA FREE. Many pets don't drink much water on a daily basis, and adding FLEA FREE (one teaspoon) to pet's food daily is a great way to make sure your pet remains 'FLEA-FREE!' Either way, FLEA FREE adds pleasant flavor to your pet's water or food.

\*\*\*\*\*

Q. Does it really work?

A. Many of our customers depend and rely on FLEA FREE as the only thing they have found to work. We don't claim that it works on all pets, just as one medication doesn't work on everyone. However, we have found that 99.3% of animals tested have had good results. That is why we are confident in offering a 100% guarantee.

\*\*\*\*\*

Q. What if I add too much FLEA FREE to my pet's food or water?

A. FLEA FREE cannot be overdosed; however, it is NOT necessary to give more than is recommended. FLEA FREE is all natural & safe for all animals and effective on most all blood feeding insects.

Q. How do I use the FLEA FREE Herbal Shampoo Concentrate?

A. FLEA FREE Herbal Shampoo Concentrate can be mixed with water or it can be used directly from the bottle. One 4 oz. bottle will make one gallon of shampoo. Many groomers mix it 10 parts water to 1 part shampoo. Then they spray the dog with it and leave on for a while...then rinses off. This kills the fleas that are presently on the animal too! Also kills head lice!

\*\*\*\*\*

Q. Does FLEA FREE shampoo really kill head lice?

A. Yes! This was discovered accidentally when one mother was at wit's end with her daughter's lice reinfestation. The mother knew that FLEA FREE contains ONLY all natural ingredients, and in her persistent effort to finally rid the head lice epidemic that had taken over her home and life, she shampooed her daughter's hair every other day with FLEA FREE shampoo, for 2 weeks...  
LICE & NEWLY HATCHED FROM EGGS GONE!!!

\*\*\*\*\*

Q. What are the herbs in the Herbal Shampoo Concentrate?

A. FLEA FREE Herbal Shampoo Concentrate contains Melaleuca and Eucalyptus. Both are antibiotic and antiseptics to help heal bites and scratches, as well as to clean and moisturize along with the soothing qualities of Aloe Vera. They are based in luxurious coconut oil, and this shampoo leaves a coat full, soft and healthy, and has a pleasant scent that lasts for days. The shampoo also cleans and protects the natural oils in the skin and draws out loose hair for less shedding.

\*\*\*\*\*

Q. What is the difference between Flea Free and Fly Free?

Actually, not much, except that it's a bit more concentrated and comes in larger sizes to accommodate the needs of larger animals.

\*\*\*\*\*

Q. How does FLY FREE work?

A. As FLY FREE enters the blood stream, it produces an enzyme, which shields the protein needed by the female insect in order to lay eggs. If she cannot sense this protein, she will

not bite the animal and looks for another place to draw blood. When used daily, FLY FREE becomes more effective and stops blood-feeding insects from biting...thus making life more pleasant for the animal. Along with effectiveness as a control of biting insects, it is also a very healthy food supplement, which improves the coat and skin, helps in control of infections, and aids in overall health and well-being of the animal.

\*\*\*\*\*

Q. What animals can I use FLY FREE on safely?

A. FLY FREE can be used on horses as well as on all domestic pets, cattle and other farm and zoo animals to eliminate biting flies, fleas, lice, mites, mosquitoes, ticks and other blood-feeding insects.

\*\*\*\*\*

Q. How much FLY FREE do I give my horse?

A. For horses and other large animals, mix 1 part of FLY FREE to 3 parts water and add to horse or livestock feed. Use 1/2 cup of mixture per day, per animal. You can feed 1/4 cup twice a day or 1/2 cup all at once. You may add to drinking water, oats, mixed feed or on hay.

\*\*\*\*\*

Q. How much FLY FREE do I give my smaller pets?

A. For small pets, mix 1 tablespoon of FLY FREE to 2 quarts of pet's drinking water or add 1 teaspoon to food. You can premix the formula and add to small caged pet's water bottles too!

\*\*\*\*\*

Q. What are the ingredients in FLY FREE?

A. Sterile water, vinegar, garlic, citrus and herbs.

\*\*\*\*\*

Q. What is Flea Free's shelf life?

A. At the time of this writing, the longest amount of time a case of Flea Free sat in a garage, through seasonal temperature changes, and was found three years later, to still be as effective as a newly processed batch.

\*\*\*\*\*

Q. How long has the company been in existence?

A. The company has been in existence since 1986, and started in the kitchen of Clara and Mike's home, in Clearwater, Florida. All FLEA FREE products carry a 100% satisfaction guaranteed! Doesn't an 87% re-order rate tell it all?
